Clinical Coding Practice Framework

Do you know about the Clinical Coding Practice Framework (CCPF)?

The CCPF is designed to ensure the integrity of clinically coded data for patient safety and quality, research, epidemiology, health care management and planning, evaluation and reimbursement.

The CCPF provides guidance for those involved in the clinical coding process on:

- Clinical coding and legal requirements
- Clinical coding practice
- Clinical coding quality and education.

The Clinical Coding Practice Framework can be accessed via the websites:

- Health Information Management Association Australia (HIMAA)

(https://sydney.edu.au/health-sciences/ncch/docs/HIMAA_CCSA_Clinical_Coding_Practice_Framework.pdf)

- Clinical Coders' Society of Australia (CCSA)

(<http://www.ccsofa.org.au/index.php/ccpf>)

- Independent Hospital Pricing Authority (IHPA)
